

# IceSpy Notion Pro

## Echo Repeater

notion pro

Affordable wireless monitoring  
without compromise

The Notion Pro Echo unit is an optional add-on to the Notion Pro system for extended radio range. The Notion Pro radio range can reach up to 300 meters\* and radio range is extended by a further 300 meters\* with the use of an echo repeater.

The Notion Pro Echo device has been specifically designed for forwarding data between Notion Pro transmitter units and Network Receiver units. The communication to and from transmitters is made via radio link. The Notion Pro Echo has a backup supply for continuous operation in case of power failure (up to 3 days.)

The Notion Pro Echo enables extended distance one-way communication (broadcasts only) between the transmitter units, additional Notion Pro Echo units and the Network Receiver/s.

\*Over open ground.

### Product Features

- Battery back-up for 3 days plus
- Easily accessible battery for replacement by the user
- Echo unit incorporates a wall mountable bracket
- Up to 5 years battery life
- Complies with BS EN 12830
- Complies with RoHS, EU directives and WEEE
- Carries CE Marking

### Benefits

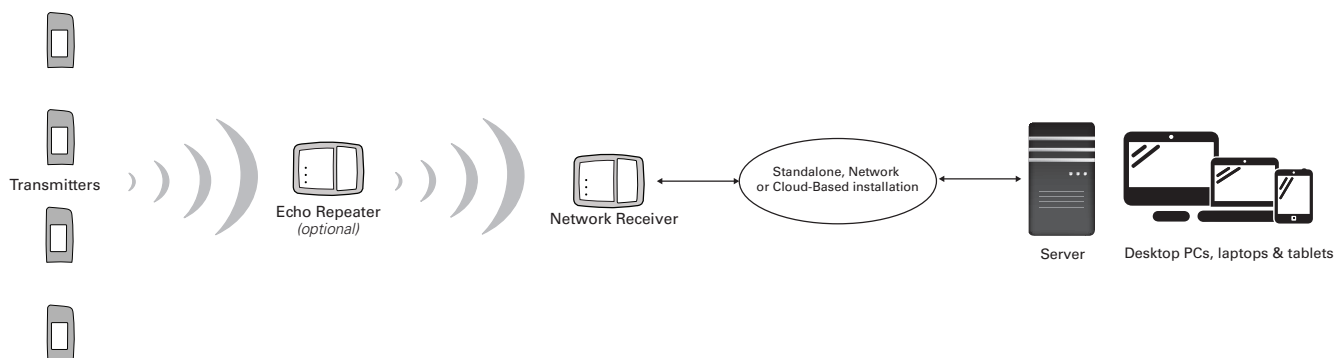

- Discreet units easily positioned
- On-board battery back up
- Extends radio range

Always ask for a  
long-range signal  
strength test when  
buying any radio  
system.  
We can prove ours  
to be unrivalled.

## TECHNICAL SPECIFICATIONS

Dimensions:	195 x 148 x 45mm
Weight:	450g
Case materials:	ABS
IP rating:	IP53
Operating Temp:	0°C to +40°C
Storage Temp:	-40°C to +85°C 0-100% RH non-condensing
Radio Frequency:	433-434MHz Band
Radio Protocol:	Frequency hopping for greater security
Transmitter Power:	10mW
Communications:	2 way radio
LED indication:	Red (RX) Yellow (TX) Green (Power)
